

AMENDMENT TO THE SPECIFICATION

Please cancel the "Cross-Reference To Related Applications" paragraph earlier inserted on page 1 of the specification between lines 1 and 3 in the First Preliminary Amendment in this application having a filing date of April 4, 2007.

That is, there should be no cross-reference to related applications in the specification. The change is shown below using strike-throughs:

~~This application is a continuation in part of United States pending application Serial No. 09/916,146, which claims the priority date of 28th July 2000 and is entitled COPY PROTECTION FOR OPTICAL DISCS.~~

CHANGE IN CONTINUITY DATA

When this case was originally filed, the application claimed priority to PCT/GB04/00647, and also under 35 U.S.C. § 120 to U.S. Application No. 09/916,146 filed July 26, 2001. The original filing receipt did not include a reference to U.S. 09/916,146. Applicant earlier requested a corrected filing receipt showing this priority claim, which the PTO has provided.

However, Applicant now wishes to delete the priority claim to U.S. 09,916,146. That is, the only remaining priority claim is to PCT/GB04/00647. Applicant requests that the PTO correct the continuity data for this application accordingly.

This Second Preliminary Amendment drops the reference to U.S. 09/916,146 from the specification.

Thereby under 37 C.F.R. § 1.78 there is no longer a claimed priority benefit to U.S. 09,916,146.

It is believed that no further action is required under 37 C.F.R. § 1.78 to make this priority change. If the Office believes that a supplemental oath or declaration is also needed, please contact the undersigned.
